**4. FIRST-AID MEASURES**

---

**Inhalation**                            Move to fresh air. Call a physician if symptoms develop or persist.  
**Skin contact**                        Wash off with soap and water. Get medical attention if irritation develops and persists.  
**Eye contact**                         Rinse with water. Get medical attention if irritation develops and persists.  
**Ingestion**                            Rinse mouth. Get medical attention if symptoms occur. Never give anything by mouth to an unconscious person.

**Most important symptoms/effects, acute and delayed  
Indication of immediate medical attention and special treatment needed**

Direct contact with eyes may cause irritation, watering, redness, or pain.

Direct contact with skin may cause irritation or redness. Ingestion may cause stomach pain.

Treat symptomatically.

Treatment should be supportive and based on the judgment of the physician in response to the reaction of the patient. Treat according to symptoms (decontamination, vital functions), no known specific antidote. Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

**General information**

Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

**5. FIRE-FIGHTING MEASURES**

---

**Suitable extinguishing media**

Foam. Powder. Carbon dioxide (CO<sub>2</sub>). Dry chemical.

**Unsuitable**

Do not use water jet as an extinguisher, as this will spread the fire.

**extinguishing media****Specific hazards arising from the chemical**

During fire, gases hazardous to health may be formed.

**Special protective equipment**

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**And precautions for firefighters****Fire fighting**

Stop spill/release if it can be done safely. Move containers from fire area if you can do so without risk.

**equipment/instructions****Specific methods**

Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards**

No unusual fire or explosion hazards noted.

---

**6. ACCIDENTAL RELEASE MEASURES**

---

**Personal precautions, protective equipment and emergency procedures**

Eliminate all ignition sources (no smoking, flares, sparks or flames in immediate area). Isolate hazard area and keep unauthorized personnel away. Do not touch or walk through spilled material. Ventilate closed spaces before entering. For personal protection, see section 8 of the SDS.

**Methods and materials for containment and cleaning up**

Use water spray to reduce vapors or divert vapor cloud drift. This product is miscible in water. Stop spill/release if it can be done safely. Move containers from spill area. Dilute with water and mop up. Dispose of contaminated materials according to federal, state and local regulations. Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**Environmental precautions**

Avoid discharge into drains, water courses or onto the ground.

Notify authorities if any exposure to the general public or the environment occurs or is likely to occur. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

**7. HANDLING AND STORAGE**

---

**Precautions for safe handling  
Conditions for safe storage,  
including any incompatibilities**

Observe good industrial hygiene practices.

Avoid breathing vapor or mist. Avoid contact with skin, eye or clothing. Eating, drinking and smoking in work areas is prohibited.

Store in cool, dry, well-ventilated areas away from heat, direct sunlight, direct UV, and strong oxidizers. Keep container(s) tightly closed and properly labeled. Containers that have been opened must be carefully resealed to prevent leakage. (see section 10 of the SDS).

**Shelf life**

12 months. Use product after opening. Do not re-store.
